employment

May 1992 – Present :: On Track interactive

Owner: On Track interactive started out as a custom audio design facility, mainly creating sound effects, radio spots, and documentary scores. The business eventually evolved into an internet design/multi-media production facility. Client samplings include Killington SKI, Bavarian Motor Works, Johnson & Johnson, The U.S. Government, Aveda, AT&T, AIG (American Insurance Group), Private Label Fitness, British AeroSpace Engineering, and many others.

Rob is presently engaged in creating various media for the web and developing customized Wordpress content management sites for his clients. In addition, extensive audio editing.

** Rob Henrichon runs his own freelance business under the name: **On Track interactive**. The following are samplings of projects he has created, developed, and/or worked on . . .*

Nov 2006 - April 2007 :: RMHS Web Development & Database

Developed new website for Rutland Mental Health Services in Vermont. Created a secure online database log-in for all employees and streamlined access of files to all employees.

Nov 2005 - March 2006 :: EMC Web Design & Intranet Wireless

Designed website for this PC board manufacturer. Also upgraded and installed internal routers, software applications, and repeaters onsite to accomodate wireless connectivity through-out the facility.

Nov 2005 - March 2006 :: The Hartford Business Analyst & Web Portal

For The Hartford's fifteen million dollar financial project. Main responsibility was in analyzing and troubleshooting web user interfaces. Also developed an intranet web portal for media management storage.

Oct 1998 - June 1999 :: TargitMail Director of Marketing & Senior Designer

Created complete brand of email fame TargitMail.com, inclusive of brand name and logo. Developed marketing materials in both print and web based media. Built interactive sales presentations, leading to eventual TYCO partnership.
